

# Adolfo Colavito - Curriculum Vitae

Updated at: 5th January 2024

**Born:** 11th June 1997  
**Status:** Bachelor's Degree Student  
**Languages:** Italian: Native, English : B2  
**Email:** adolfocolavito@hotmail.it  
**Website:** <https://www.linkedin.com/in/adolfo-colavito-5ab0a4276/>

I am an enthusiast student at the Polytechnic of Bari, studying Computer Engineering following the studies in information systems. In these years of university, I have learned to approach the world of programming and teamwork for the presentation of projects. My expertise and know-how revolve around programming languages such as **Matlab, Java, JavaScript and SQL**. I've used the Matlab software to process data and signals by programming small scripts. Java was used via the IntelliJ development environment, where I learned the ropes of object-oriented programming and the creation of small programs for implementing data structures. As far as SQL is concerned, it was used during the Databases course using the **Oracle APEX** platform and in particular the **"SQL Workspace"** section, where I was able to appreciate the fundamentals of database structure and various ways to query and process data from a dataset. Actually, I'm approaching the world of web development by learning the rudiments of **HTML, CSS and JavaScript** using **Node, Express, MongoDB and React** technologies. My reference IDEs are Visual Studio and IntelliJ. When I'm not studying, I provide private lessons for high school students. I've also worked occasionally as a waiter. Both of these experiences, although small, improved time management, teamwork and working toward goals.

## Education

2021 - Current	<b>Bachelor Degree in Computer and Automation engineering - curriculum: Computer and Sistems Applications</b> <i>Polytechnic university of Bari</i>	📍 <i>Bari, Italy</i>
2011 - 2016	<b>High School Diploma Liceo Classico</b> <i>LCS Socrate</i>	📍 <i>Bari, Italy</i>

## Development Skills

<b>Softwares</b>	OS: Windows, Linux (Ubuntu), MacOS Database: MySQL, MongoDB Office: $\LaTeX$ , Microsoft Office, Libreoffice
<b>Programming</b>	Java, HTML, CSS, Javascript
<b>Framework</b>	Express
<b>Libraries</b>	React

## Seminars and conferences

---

2023	<b>DevFest Bari 2023, Participant</b> <i>Organized by Google Development Group, Polytechnic of Bari</i>	📍 <i>Bari, Italy</i>
2023	<b>PRIMO Workshop 2023, Participant</b> <i>Organized by University of Bari Aldo Moro, MIDAS Research Group</i>	📍 <i>Bari, Italy</i>

## Personal Interests

---

<b>Sport</b>	Gym workout, running
<b>Free time</b>	Chess, playing guitar
<b>Other</b>	Traveling, cinema
