## Skills

Programming Languages
Java, JavaScript, HTML 5, CSS 3

Framework and libraries
React, Framework7

Database
MongoDB, SQL, IndexedDB

Operating systems
Linux, MacOS, Windows

Tools and Workspaces
Docker, NGINX, Oracle APEX

IDE
IntelliJ, WebStorm, Visual Studio, Matlab

Languages

Italian

English

Bachelor's student in Computer Engineering (specializing in Information Systems), with strong foundations in programming, particularly in web development. I have gained academic experience in software development using **Java**, writing queries for relational databases (**Oracle APEX**), and performing data analysis with scripts in **MATLAB**. Passionate about web development, I have created small front-end projects using **HTML**, **CSS**, and **JavaScrip**t, also exploring libraries and frameworks such as **React** and **Framework7**. I am comfortable working in teams and have participated in various projects, both individual and group-based, in an academic setting. I am curious and motivated to grow professionally, and in my free time, I enjoy expanding my skills by experimenting with technologies like **Docker** and **NGINX** for self-hosting and containerization.

Education

Politecnico di Bari
September 2019 - on going
Bachelor's Degree
Automation and IT engineering
- https://www.poliba.it

Liceo Classico Socrate
September 2011 - July 2016
High School Degree
Classical Studies
- https://www.liceosocratebari.edu.it

Experience

National Civil Service
19/09/2024 - 19/09/2025
Politecnico di Bari
Bari
- Project Info

During my civil service, I contributed to the operational and digital management of a highly computerized university library, the "Polilibrary" of the Polytechnic University of Bari.

- I managed both front-end and back-end activities using the **ExLibris Alma** platform, performing metadata editing for the organization and traceability of volumes.

- I enhanced my professional use of the **Microsoft Office suite** for reporting and collaboration among staff members.I worked in a **coworking environment**, coordinating with personnel and integrating digital tools to improve operational efficiency.

- I gained experience in managing information flows, organizing bibliographic data, and using management software.

Seminars and Conferences

DevFest Bari
2023-2024
Promoted by Google Developer Group at Politecnico di Bari

PRIMO Workshop
2023
UniBA

Promoter by Università degli studi di Bari, MIDAS research group

Interests

Free time
I play guitar and piano, I like running and I'm a big movie enthusiast
